Proactive and diligent Full Stack Developer with a passion for iOS & Web development. Expertise in programming technologies such as Swift, Obj-c, JavaScript, React. Experienced in working across apps to deliver scalable and modular solutions. Strong ability to learn new technologies quickly and bring a critical eye to new projects.

## SKILLS

**Languages/Frameworks/Database/Tools:** Swift, Objective C, JavaScript, HTML, CSS, JavaScript, jQuery, MongoDB, MySQL, Core data, React js, Express js, Xcode, Visual Studio

## PROJECTS

### iOS Projects

**Casey's App (iPhone)** | [App Store Link](#) | Sr. App Developer | Bangalore, India 2019-2021  
*Casey's App was developed for ordering food and for refueling vehicles. This app allows users to earn rewards points and the user gets rewards points for every purchase.*

- Designed and developed iPhone App using Swift, MVC pattern & Core data Integration. Developed the networking layer using the Alamofire framework and integrated it with firebase.
- Worked on Agile Scrum Methodology involving daily scrum meetings, sprint review meetings, and Release Planning.

**Allstate App (iPhone)** | [App Store Link](#) | App Developer | Bangalore, India 2017  
*Allstate App provides car insurance policies and also offers a variety of financial services.*

- Contributed to the development of the Allstate Roadside Services (ARS) Module.
- Designed and developed rich and enhanced app views using swift.
- Implemented Unit Test Cases along with UI Automation script.

**WorkSafe Admin App (iPad)** | App Developer | Bangalore, India 2016  
*The app was developed to ensure the safety of mining workers. When any laborer is not wearing safety equipment, the admin will be notified. All worker's caps should be equipped with beacons to be informed of their activities.*

- Worked on the complex UI and database design of the app.
- Responsible for creating reusable component Expandable Menu Controller.
- Responsible for creation and integration of APIs with the help of APIGEE (Cross-cloud API platform).

**MWC Connected Conference App** | App Developer | Bangalore, India 2016  
*This app is developed for handling a conference at Accenture. The use case of this app is to enable tracing attendees/employees during a conference.*

- Integration of Networking Layer with Alamofire.
- Have been involved in integrating beacons(Gimbal/Estimote/Aruba) for tracking.

### Web Projects

**Personal Website** - <https://www.shellyguptaz.com> | San Jose, USA 2021
