SUMMARY

- A Full-Stack Developer that has worked in high-speed environments with strong experience in developing iOS mobile apps and websites. Eager to pursue a career in the creative, analytical, and collaborative nature of full-stack development and for the opportunity to directly impact a company's future.
- Highly motivated Web developer able to build websites from the ground up. Committed to the constant improvement of my skills, my goal is to become exceptional at Full-Stack development that's built on strong foundational Front-End and Back-End concepts. I'm happiest when I'm creating, learning, exploring, and thinking about how to make things better and solving problems.
- Recently **graduated** from the **Coding Dojo** with a **MERN stack**.
- Strong knowledge in **MERN Stack** with good experience in building Web Applications, used **React.js** for client-side, **Node.js/Express** for server-side, and **MongoDB** for the database.
- Expertise in using Grid Controls, jQuery, and DOM manipulations, worked with bootstrap for a responsive website.
- Experience in developing Restful web services with Express and NodeJS.
- Strong knowledge of Object-Oriented Programming, functional programming and have good knowledge of design patterns, Singleton, MVC.
- **4.5 years** of strong experience as an iOS App Developer with a solid understanding of swift technology, MVC/MVVM frameworks, Restful web services, and Data Base designing.
- Developed various iPhone and iPad applications for in-house and external clients.
- Extensive experience in iOS environments using the latest frameworks and third-party libraries.
- Extensive experience in JIRA for bug tracking and Jenkins for Continuous Integration and Deployment.
- Hands-on experience in working with GIT.
- Team player with excellent communication, Troubleshooting, Debugging, and Strong analytical problem-solving skills to deliver Technology products and consulting solutions.
- Experience with Agile Scrum Methodology, highly involved in daily scrum meetings, sprint review meetings, and scrum Release Planning.

Web Technologies/Frameworks: HTML, CSS, JavaScript, jQuery, ReactJS, NodeJS, Express, MongoDB, ASP.NET, JSON, Bootstrap,Alamofire,

Databases: MongoDB v5.0, MySQL,Core data, Firebase

Testing: XCTest, OCMock

IDE/Tools: Xcode, Visual Studio 2015/2013, Eclipse, Postman

Methodologies: Agile Scrums, Waterfall

Cross-platform App: PhoneGap, React Native

Version Control: Git

TECHNICAL PROJECTS

Casey's App (iPhone) | Sr. *App Developer* | ~~Bangalore, India~~   2019-2021
[APP DESCRIPTION]

- Casey's App is developed for ordering food and for refueling vehicles. This app allows users to earn rewards points and the user gets rewards points for every purchase.
- Analyzed business requirements to translate functional requirements into technical requirements and developed the app using swift.
- Developed the code using the **Alamofire** framework which handles network calls.
- Designed and developed iPhone App using Swift, presentation layer with MVC used core data for data manipulation.
- Used XIB to build the Interactive User Interface(UI)
- Implemented analytics using Firebase.
- Involved in design and development of Restful API and services to interact with data storage layer.
- Worked on Agile Scrum Methodology, highly involved in daily scrum meetings, sprint review meetings, and scrum Release Planning.

Allstate App (iPhone) | *App Developer* | ~~Bangalore, India~~   2017
[APP DESCRIPTION]

- Allstate App provides car insurance policies and also offers a variety of financial services.
- Contributed to the development of Allstate Roadside Services (ARS)
- Designed and developed iPhone App using Swift and Objective-C, presentation layer with MVC used core data for data manipulation.
- Implemented Unit Test Cases and achieved 80% coverage of the App
- Implemented UIAutomation script
- Designed and developed rich and enhanced web pages using swift
- Worked on Agile Scrum Methodology, highly involved in daily scrum meetings, sprint review meetings, and scrum Release Planning.

WorkSafe Admin App (iPad)| *App Developer* | ~~Bangalore, India~~   2016
[APP DESCRIPTION]

- The app is developed to ensure the safety of mining workers. When any laborer is not wearing safety equipment, the admin will be notified. All worker's caps should be equipped with beacons so that the admin can be informed of their activities.
- Worked on the complex UI and database designing of the app.
- Used MVC framework for developing the application as it will distribute the development in Models, Views, and Controllers and also it supports stateless development.
- Responsible for creation and integration of APIs with the help of APIGEE (The cross-cloud API platform).
- Using Alamofire, implemented network handling
- Implemented safety features for workers using Gimbal beacons and Push notifications.
-

MWC Connected Conference App - | *[App Developer]* | ~~Bangalore, India~~   2016
[APP DESCRIPTION]

- This app is developed for handling a conference at Accenture. The use case of this app is to enable tracing attendees/employees during a conference.
- Our team consisted of 4 members, and I was responsible for working on the business logic by using APIs.
- Implemented beacons integration for tracking (Gimbal/Estimote/Aruba).

Q-Cards: The Placement - | *[Student]* | ~~Bangalore, India~~   2015
[APP DESCRIPTION]

- This is a full-featured Android application that I created in my final year of college with the PhoneGap framework.
- The Q-Cards app is a ready reckoner android application that helps students to clear placement rounds.
- PlayStore Link - https://www.allfreeapk.com/q-cards-placement-app,1895112/

PROFESSIONAL EXPERIENCE

CONSULTANT | *DELOITTE*| Bangalore, India   [2018-2021]

- Deloitte gave me the opportunity to grow both personally and professionally
- Worked with Great teams and leaders
- Have been recognized by clients on several occasions
- Was awarded "Star of the Release" in Deloitte Mobility

SOFTWARE ENGINEER | *ACCENTURE* | Bangalore, India   [2015-2018]

- The experience is fantastic and a great way to jumpstart a career for new developers
- The company also trained me in Java
- Have been part of a cultural event team.
- Was awarded "Best Employee" in Accenture Mobility

EDUCATION

Coding Dojo	*Full-Stack Developer Certificate*	SAN JOSE, CALIFORNIA *Immersive Full-Stack Training in MERN (MongoDB, Express, React.js, Node.js)*	[2021]

Manipal Institute of Technology	*MASTER IN COMPUTER APPLICATION (MCA) in Computer Application*	[CITY, STATE]
		   • *Relevant Coursework: 3 years of the degree.*
		   • *Subjects: C, C++, JAVA, ASP.NET, DATA STRUCTURE, MY SQL, MULTIMEDIA, HTML, CSS, JAVASCRIPT, ALGORITHM*
			Graduated
			July 2015
